

Your risk matrix, alive. Your team, connected.

Move from spreadsheets to an operation that observes, talks and learns. Play with Puelche or build HIPER with your team.

Task / Hazard / Control / Owner / Evidence / Learning

Free

The complete world, without an account. Missions, conversations and your notebook.

Team

One site: living HIPER and team sessions.

Organization

Multiple sites within the agreed contractual scope.

Price and terms depend on sites, scope and support. Activation by contract; no payment in the platform.

Service scope

This baseline proposes risks and controls for discussion. It does not certify observed conditions or OHS approval.

Where to start / Instruments / Academy / Versions

Essential instruments remain available at every level.

Next step

01 Where to start

02 Describe operation

03 Build proposed baseline

04 Request OHS review

05 Actions

06 Academy

07 Versions

Available: free game, guided intake and HIPER management with activated access.

AI and photos require completion of technical activation.

Email confirms identity. Permissions are enabled per organisation and site. The game and its perspectives grant no management authority.

Representative scenarios. Real data stays in private workspaces.

We will review the scope with you. A request does not activate access or confirm a contract.
